

SUPPLIER ADDENDUM

Attachment to the quarterly supplier report

Reporting period: April to June 2026

This attachment is sample data. Every name, address and account number in it is invented.

It arrived separately from the report it belongs to, which is why it has its own cover, its own blank separator pages, and a signature block that should not be filed as it stands.

REVISED TERMS

Two suppliers renegotiated during the quarter. The revised terms below replace those in section 4 of the main report and take effect from the first of July.

Northern route	45 days	was 30 days
Coastal route	30 days	unchanged
Inland route	30 days	was 45 days

All other terms are rolled over without change.
